

ACCESSORIES

SPP (STATIC PRESSURE PORT)

SPP Static Pressure Port is used together with a differential pressure transmitter to minimize the error pressure caused by the wind in outdoor pressure measurements.

APPLICATIONS

SPP is used for:

- building envelope measurements

MODEL SUMMARY

Model	Product code
SPP	T00419

SPECIFICATIONS

Technical Specifications

Media compatibility:

Dry air or non-aggressive gases

Physical

Dimensions:

Case: 85.0 x 50.0 x 22.0 mm

Weight:

26 g

Mounting:

2 each 4.0 mm screw holes

Materials:

Case: ABS

Protection standard:

IP54

Pressure fitting:

Male Ø 5,2 mm barbed brass
