

Maximum energy efficiency and comfort

Produal room transmitters
powered by patented technology

The product family includes RTX-D with display and RTX and RT-CO2 without display, all available in various measurement combinations of °C, CO2, % rH, VOC, and PIR.

Market leader in accuracy

The most accurate IAQ transmitters on the market: delivering even $\pm 0.3^{\circ}\text{C}$ temperature accuracy across a wide range of room temperatures, thanks to patented temperature compensation and the IQS index (Installation Quality Score).

Innovative and easy to install

With its modern design and hinge-opening cover, the device ensures easy wiring connectivity as well as convenient commissioning and testing, with the display remaining active when the cover is open. The model comes in black for added style and can be equipped with a surface mounting box for flexible installation.

Intuitive touchscreen

The multifunctional, clear touchscreen offers an intuitive user experience and all essential IAQ requirements. A version without a touchscreen is also available.

Flexible use across a wide range of applications

- Versatile inputs and outputs
- Modbus / BACnet connectivity
- MyProdual configuration and life cycle services
